

# IRIS OPSIS ONLINE WEBINARS

## Webinar Timetable July–September 2010

### Solicitor Case Manager (SCM)

SCM has been developed as a generic case management system to cater for all work types and is ideal for firms who have several departments. It is fully customisable, so you can adapt the system to suit the way you work, the time recording options are extremely flexible and our unique two-way integration with Microsoft Outlook<sup>®</sup> provides sophisticated diary, task and email management.

### Case Manager Anti-Money Laundering (AML)

AML ensures full compliance and stores all client ID verification and AML records etc as part of your SPS client and matter database.

### Case Manager Marketing

Make regular informed contact with your clients or even contacts through your OPSIS database. Target specific campaigns and in your preferred method to increase your matters and improve your firms profile.

### Weblink

Online case tracking: Support your clients 24 hours a day, 7 days a week, 365 days a year. Weblink gives your clients access to selected matter information over the internet in a totally secure and confidential way.
